CAUTION

* Please read before assembly

- This is an assembly model. Please read the instructions before starting assembly.
- Please make sure to dispose of the plastic bags after taking out the parts to avoid danger to children from suffocation or swallowing.
- Sand wooden parts until smooth, and throw away all rubbish. Wooden bars break easily, so please handle them carefully. Be especially careful if children are present.
- Do not use the parts for other purposes because some parts have sharp edges. Be especially careful if children are present.
- This kit contains small parts, so please do not swallow them by mistake. Take extra cautions if you have small children. Accidental ingestion may cause suffocation.
- Use of nippers, knives, sandpaper, and files for purposes other than those intended for the assembly of this kit may lead to injury. Please be careful when using these tools. If you are under 12 years old, please assemble this kit with a parent or guardian.
- When using adhesives and paint, please be mindful of the following:
 - Do not use them in an enclosed room. There is a danger of intoxication.
 - Do not use them near open flames. These materials are flammable.
 - Do not put these materials in your mouth or eyes. If swallowed or taken by mistake, immediately wash out the affected areas with water. Afterwards, please consult your physician.
- Please note the parts are subject to change without notice.

Stick the translucent film on the back of the window.

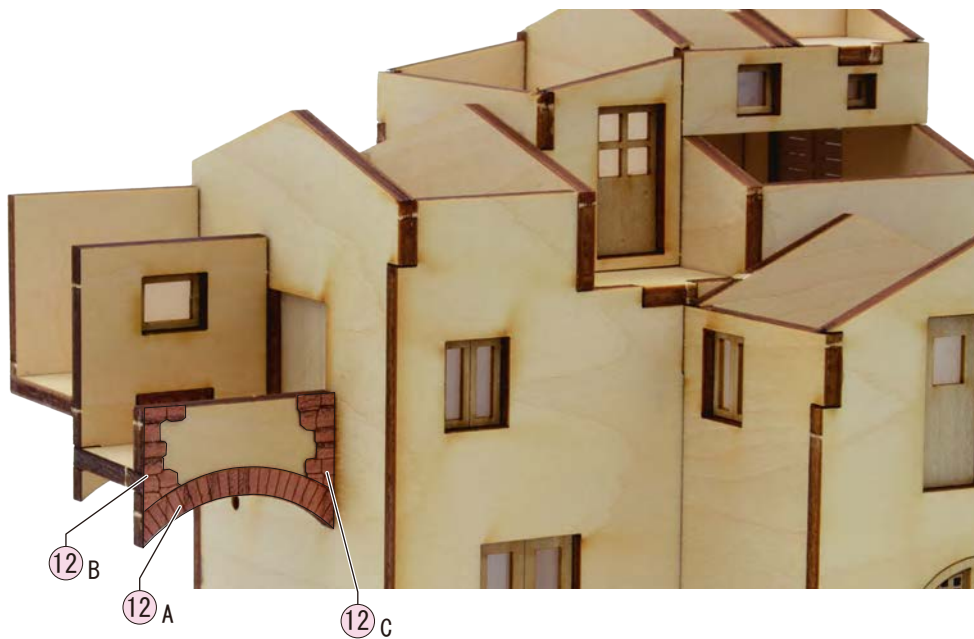

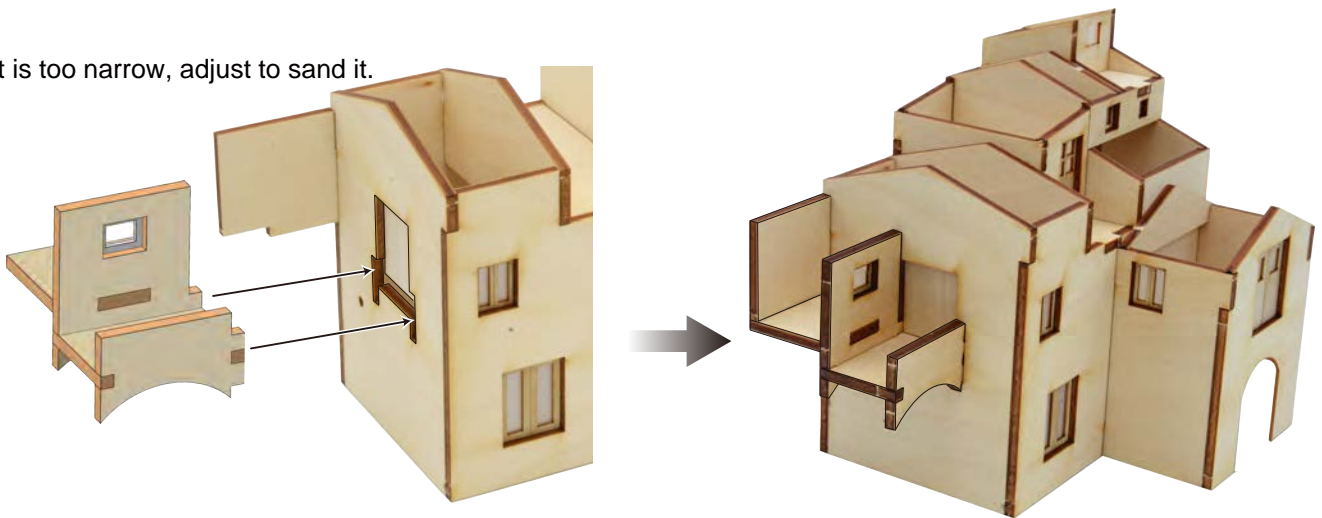

6

《Assemble the wall of the right house 4》

※If it is too narrow, adjust to sand it.

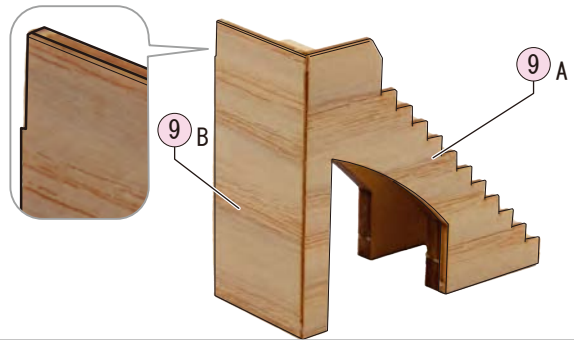

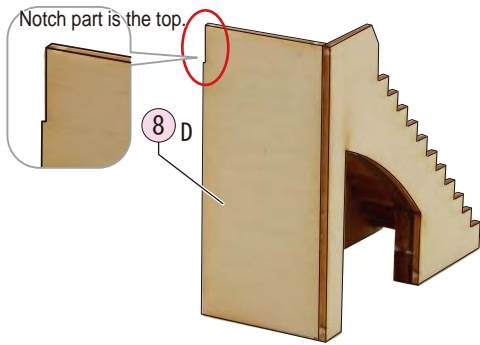

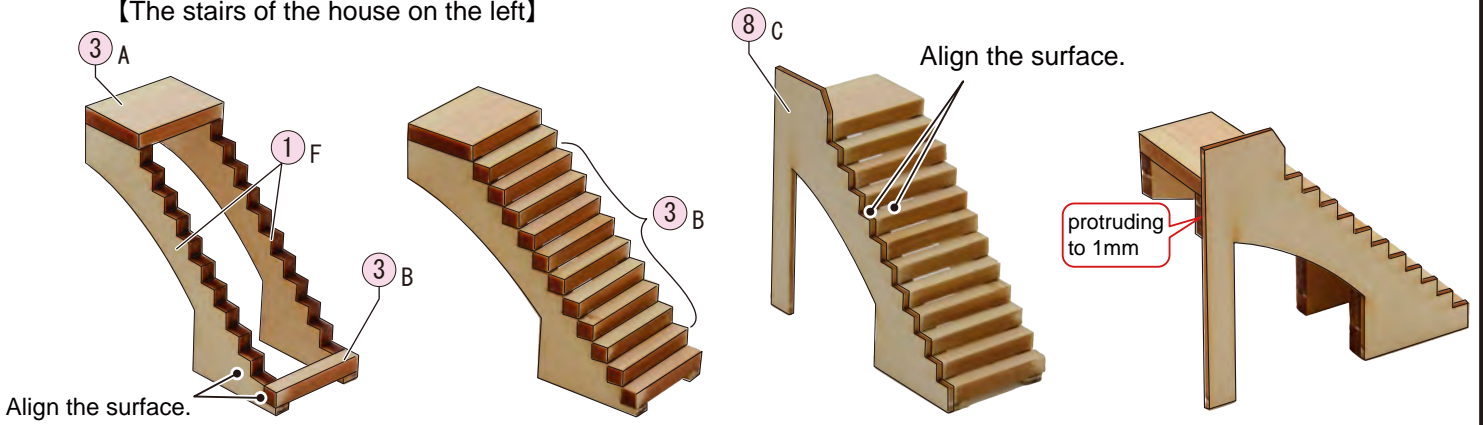

7

《Assembly of the stairs》

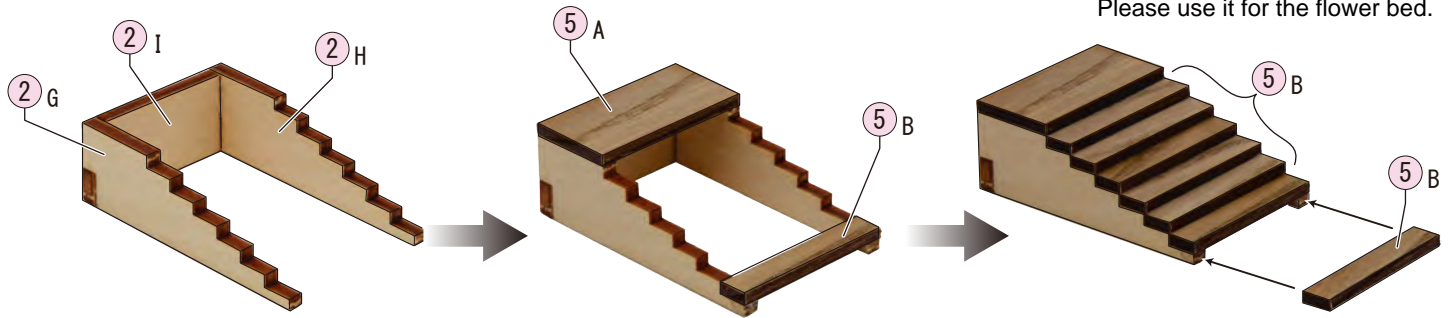

【The stairs of the house on the left】

【Central stairs】

※There is one left.
Please use it for the flower bed.

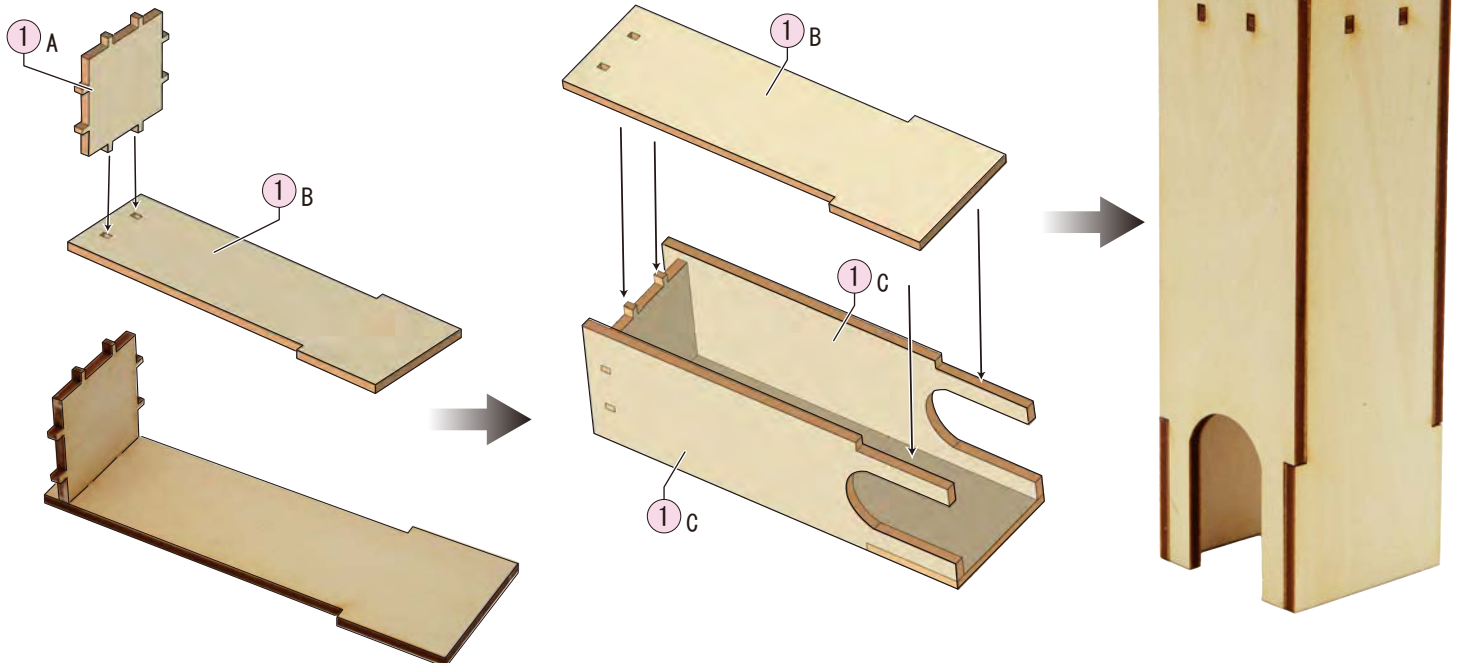

8

《Assembly of the clock tower 1》

●Stick ① A in ① B and glue them.

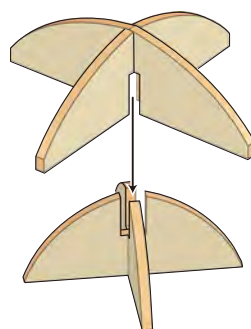

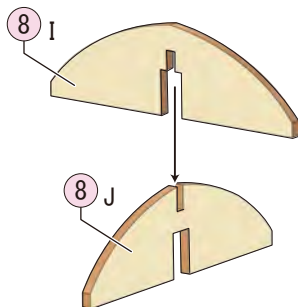

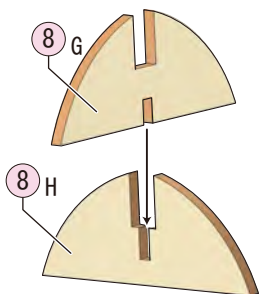

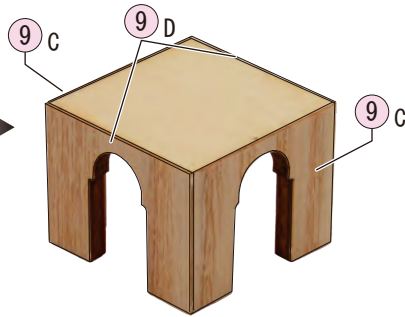

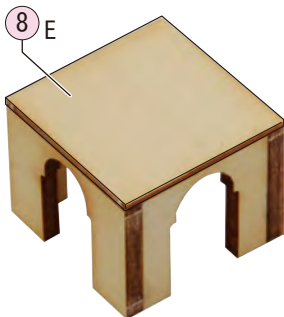

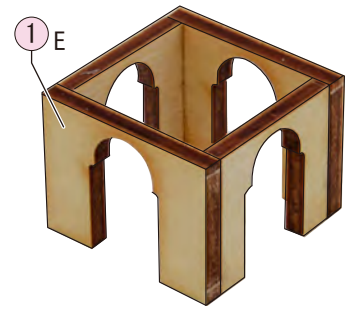

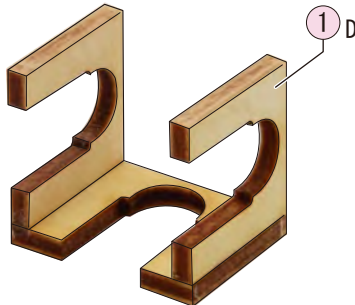

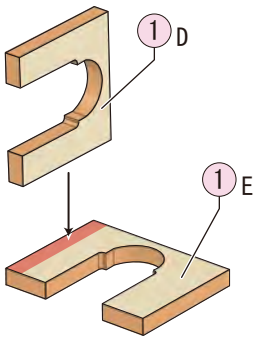

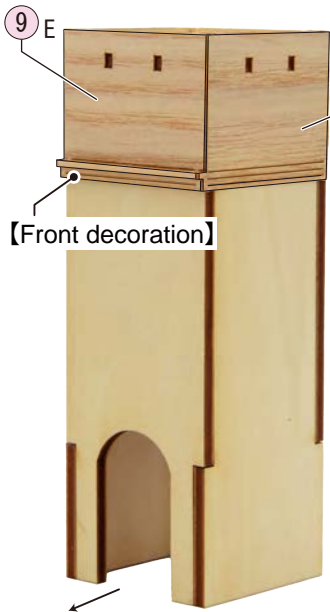

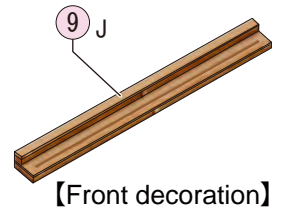

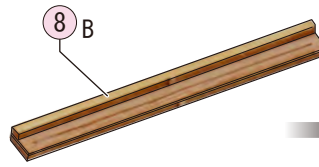

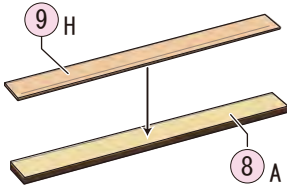

9

《Assembly of the clock tower 2》

【Front decoration】

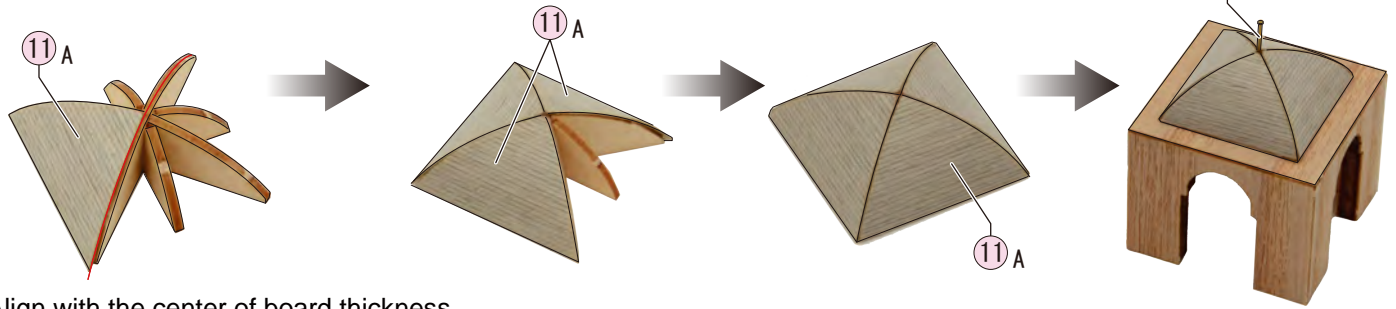

10

《Assembly of the clock tower 3》

- Assemble to the center and glue it.
- Put the brass nail in the vertex.

- Glue ⑪ A after making a bending tendency
Wetting the surface with a little water is easy to bend it.

Align with the center of board thickness.

- Glue it to the center of the tower.

Front side

11

《Attach of the brick》

- Cut ⑨ M about 3 to 8mm with the cutterknife or scissors in advance.
- Glue them in a random on both sides of the tower wall.

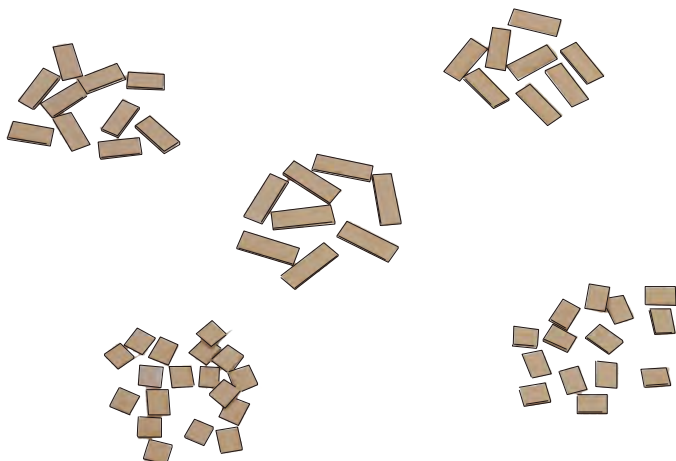

What we want to express

In Italy, exterior wall is often used the plaster and the mortar on the brick or masonry, and the plaster are come off by the dilapidation. For the reason, There are the cityscape lined with the houses where masonry is exposed. Let's express masonry in various forms and colors.

It would be nice to put pieces of the same size together.

Cut them into small pieces and glue them on the arch.

12

«Attaching of bricks on the left and right side of the house»

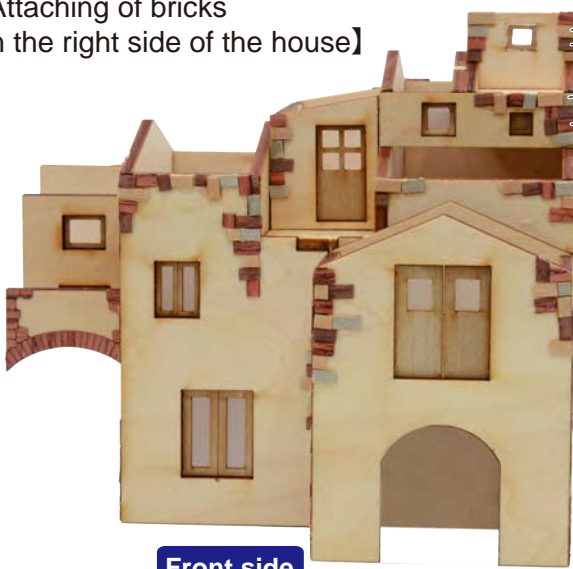

In case Ceramic Stucco (see next section) is not used, first painting and then gluing bricks into the wall.

● As same as the attachment of the tower brick, cut ⑨ M ⑩ C ⑪ B ⑫ D to the length about 3 to 8mm in advance and glue them in a random.

13

《Painting for exterior wall》

What we want to express

In Italy, where lime stone is abundant, exterior walls are made of plaster or mortar over stone bricks or masonry. Let's use the ceramic stucco to express the situation that plaster are come off, masonry is exposed.

- Using the optional ceramic stucco. Lightly paint little by little using painting knife (small knife).

A little on the masonry part gives a realistic feeling. If you get a lot of it, wipe it off immediately.

Liquitex Ceramic Stucco (an optional extra)

【Tower】

Painting on the left and right side of the house

- Mix the ceramic stucco and water-based acrylic paint of the color you like, lightly paint little by little.

In the case the ceramic stucco overflowed, remove them painting knife and sticks.

This model is mixed in the following the proportion.

色	Ceramic Stucco	Titanium white	Yellow oxide
割合	10	3	1

【Left side house】

Actual images

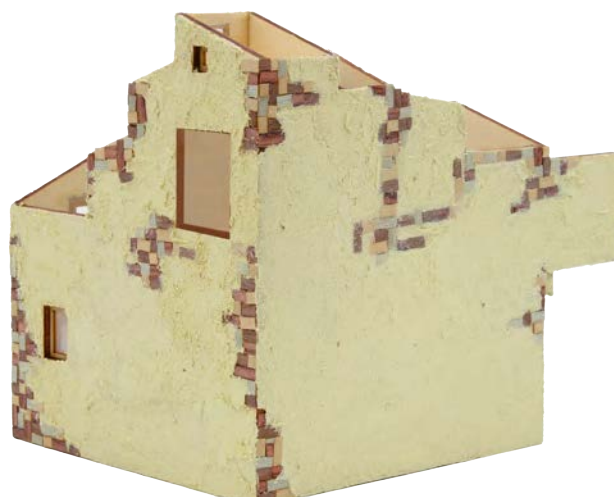

Yellow, brown, pink, orange, and many other colors.

If you are concerned about surface irregularities, please sand lightly with coarse sandpaper (#120) after drying thoroughly

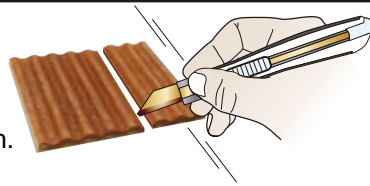

Painted with the uncolored ceramic stucco.

【Right side house】

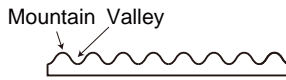

14

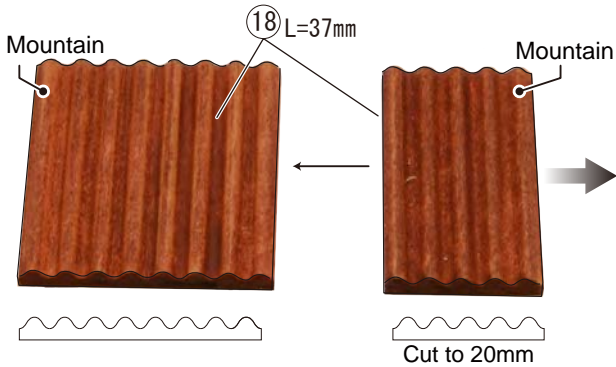

《Attach the tile of the left side house》

- Glue a piece of roof tile (18) and a piece cut to 20mm. Both ends are the mountain.
- *When cutting, cut several times with weak force.

Special oil stain by woodyjoe
 — How to use —
 Spread the oilstain with brush or sponge, and polish the surface with dry cloth in a minute.

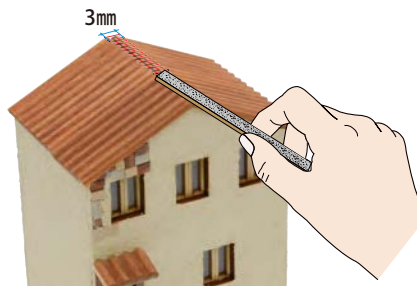

Oil stain paint

*Attach 2pieces

- (19) Restrict attaching parts of the ridge tile and make flat.
